2023 Global Christmas
Feeding Program

The Global Christmas Feeding Program is an annual event that was designed to reach the most vulnerable members of society in nations all around the world. This year, Victory Churches from across Canada raised over \$20,000 that was distributed to 17 nations worldwide. Outreach programs were able to give thousands of meals to hungry people, and gifts to single moms, widows and elderly that would otherwise have gone unnoticed. Here are a few stories of how your contributions made a difference:

Myanmar: In Myanmar they held 3 separate events and were able to feed over 3,000 people. The Victory team found that this was truly an open door for them to share the Gospel and saw over 1,000 people receive Jesus as their Savior.

Kenya: In Kenya they held 6 separate events. At one event they ministered to a group of 26 women with HIV/AIDS showing them that God loves you and will meet your needs no matter what situation you are in. Some received the Lord and are looking to God for their hope and provision.

Canada: Why Not Youth Centres in Brantford, ON held a Christmas gala at their youth outreach centre with a full turkey dinner, fun activities and gifts. In addition to this they have a housing program with two houses for struggling teens. Both houses received a full Christmas dinner and gifts.

Thank you to all of those who gave in support of this program. We can't do this alone and sometimes we may not realize the difference the portion we contribute makes, but together we can change the world, one meal at a time.
